## Focus 2015 - 2016

**Our strategy at PVP Ventures Limited for the next few years is targetted growth. With a sharp focus on three sectors we see exciting opportunities in- Real Estate, Retail and Media and Entertainment, we foresee an exponential growth.**

### Real Estate Retail Space Media

**A country's economic performance has a rippling effect on the performance on the Real Estate market place.**

This has a direct impact on the residential property segment. More prosperity resonates higher financial confidence among home buyers, and this leads to a greater demand for homes. However, over the last two years, India has been battling various economic issues such as rising fiscal deficits, a falling rupee and increasing food inflation which have adversely hit the performance of the real estate sector across the country. The incentives announced for the housing sector in the Union Budget and all the subsequent decisions taken by the new government seems to be reflecting their intention towards getting the economy back on the growth path. Sentiments of home buyers too, seem to have changed for the better, as the gap between demand and supply has been narrowing gradually over the last year, and this would give a fillip to the company's real estate business to forge ahead on the back of a strong recovery in sales volume.

**The Indian retail industry has presently emerged as one of the most dynamic and fast paced industries with several players entering the market.**

It accounts for over 10 per cent of the country's gross domestic product (GDP) and around eight per cent of the employment in India, making India the fifth largest global destination in the world for retail today.

Several corporates have planned to exploit the opportunities in the Indian retail space, which has lined up with a capital expenditure of over Rs 1.8 trillion (US\$ 28.94 billion) for the next three years for its retail ventures apart from others.

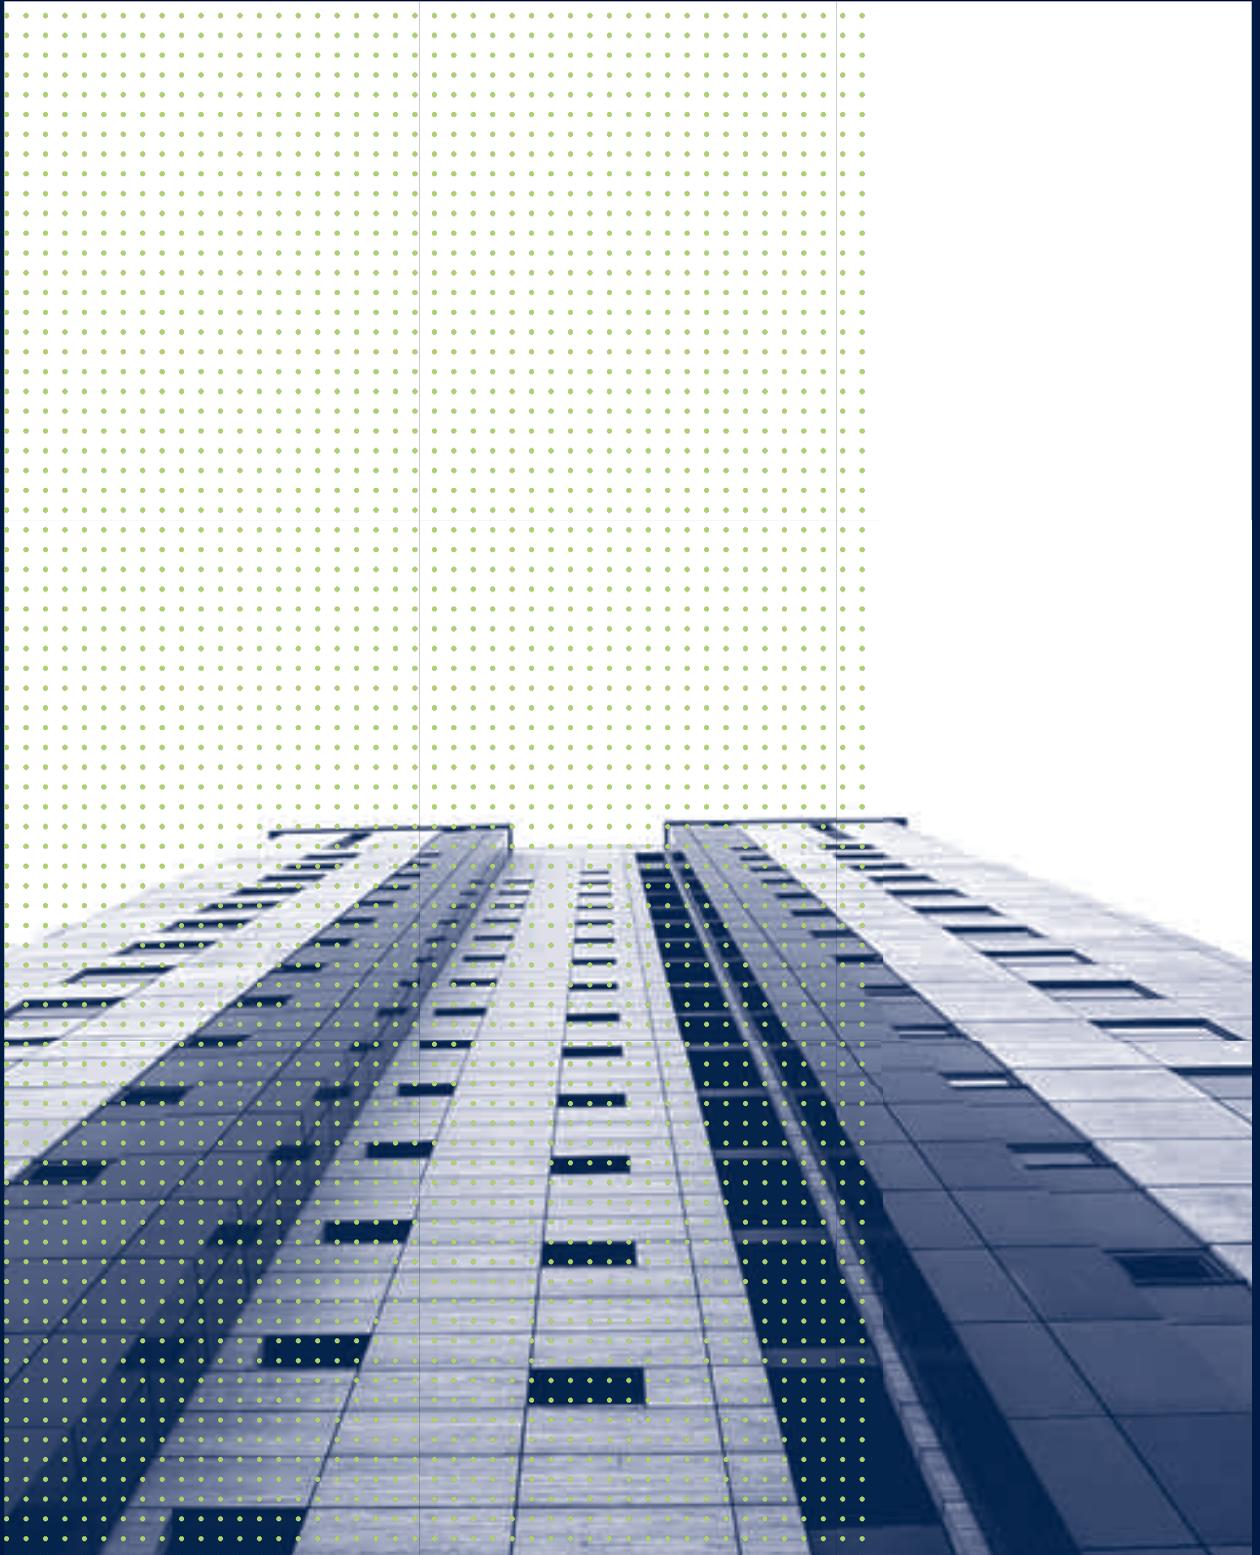

PVP Ventures plans to foray into retail consumer services. The plans, outlook with detailed implemented schedule will be unveiled in the next financial year. The goal is to tap the huge business growth available in this retail segment.

The year 2014-15 has been a progressive year for the Media and Entertainment industry in India in many ways. With the current government's optimistic outlook, business sentiment has been turned positive and strengthened by a number of growth promoting policy initiatives taken by the Government in the recent months. Consumption and entertainment have become staple diet for resident Indians and the Indian diaspora around the world.

**The entertainment industry is clocking robust numbers with an increasing foot print on the global landscape.**

A benign global economic environment and stable government policy initiatives prompted the Economic Survey to suggest that India has reached a sweet spot and could finally be launched on a double-digit medium-term growth trajectory. With the revision in growth forecast by International Monetary Fund, it is expected that the growth rate will surpass China's in 2016. PVP Ventures will therefore seize the emerging business opportunities available in this sector which would aid in creation of the value for the Company.

*“We believe that our ability to blend socio-economic agenda into developmental strategies in real estate will have a material impact on our business success.”*

Dear Shareholders,

The recently announced progressive budgetary measures of setting up of Infrastructural Investment Trusts (INVITs) and Real Estate Investments (REITs) are expected to ease the liquidity crunch faced by real estate sector during the past few years. Coupled with the raise in tax exemption limits (thus motivating home buyers) and reforms initiated in the form of Real Estate Regulatory (RER) Bill and new Land Acquisition Act in the offing, the real estate demand is expected to embark on the path to recovery.

Building real estate that has a positive social, economic and environmental impact is important for sustainability. And that is exactly what we do. We believe that our ability to blend socio-economic agenda into developmental strategies in real estate will

a material impact on our business success. We are not just any real estate company. We are today into Media and Entertainment industry and soon foraying into Retail Space. We are aware of the needs of not just today but also of tomorrow. And we have built an institution that has a strong social linkage.

If we recollect the past, the Real Estate industry suffered multiple problems in recent times, notably, delay in approvals, ever increasing raw material cost, high cost of funds etc. Further, slowdown in real estate sales driven by low market sentiments and liquidity crunch was triggered by slow uptick of sales volume. Factors like rising interest rates by banks, high inflation and the weak rupee, among others, contributed towards building a negative sentiment among home buyers resulting in a substantial drop in investor interest. Notwithstanding this tough environment, which severely impacted most real estate Companies, we have been able to register reasonable sales volumes, albeit lower than previous year.

During the financial year under review, the Company registered a total revenue of Rs. 5380.61 Lakhs on Standalone basis as compared to the previous year's total revenue of Rs. 6412.12 Lakhs. Further, total revenue on consolidated basis is Rs. 6672.68 Lakhs as compared to the previous year's total revenue of Rs. 7658.86 lakhs. The Standalone PAT (Profit after Tax) stood at Rs.1.60 crores as against Rs. 8.02 crores in the year 2014 and the Consolidated PAT stood at (Rs.33.29 crore) as against Rs. 2.80 crores in the previous year. The decline in the total Revenue and net profit is attributable to the slow down persisting in the real estate market for the last couple of years. However, the company is optimistic that the sales at North Town project will register growth in the ensuing years.

We have gone through some of the most turbulent times in the last few years. As we move to a new chapter in our development path with diversified business verticals viz. Media and Entertainment and Retail consumer services segment apart from Real Estate, we are sure that we will emerge out as a more focused organization with a clear strategic path, and look forward to reporting strong performance going forward.

Sincerely yours,

**Prasad V. Potluri**  
Chairman and Managing Director

## **Built on Strong Foundations**

### **APPRECIATION**

The base selling price of the North Town project witnessed a sharp capital appreciation from `3,000 psf in 2009 to `6,300 psf in 2015, validating robust customer demand leading to attractive project economics.

### **CAPABILITIES**

The Company is run by a team of professionally-qualified and experienced individuals with a cumulative 15 years of experience in the Real Estate sector.

### **LAND BANK**

The Company owns a substantial land bank spread across Chennai (70 acres) and Hyderabad (107 acres). This land bank is largely contiguous and strategically located.

### **LAND BANK MONETISATION**

More than 30% of the Company's land bank is under development, representing its ability to progressively monetize assets. The Company is waiting for the opportune time to launch projects across the rest of its land bank.

### **PRIDE-ENHANCING PROJECT**

The Company is engaged in the development of Chennai's largest residential township project (North Town) spread across 70 acres with almost 6,700 units in the heart of the city.

### **CONTROLS**

The Company invested in an appropriate internal control system for business processes pertaining to the efficiency of operations, financial reporting and statutory compliance.

Its internal auditors conducted quarterly audits encompassing processes including statutory compliances, payroll, purchase, fixed assets, among others and in doing so, ensured an adherence with policies and systems while mitigating operational and other risks.

## Risk Management

### **SLOWDOWN RISKS**

The fortunes of the Indian real estate industry are closely related with economic growth. The current slowdown might have a long-term impact on the sector.

**Mitigation** The fundamental rationale for the real estate and property development sector is rooted in the fact that it provides shelter and also enables an individual to own a productive asset. With India already running short of housing by 18-20 million units, the sector holds attractive long-term potential.

### **PERCEPTION RISKS**

The Company has only one project under development.

**Mitigation** PVP Ventures is engaged in Central Chennai's largest residential township project spread across 70 acres, comprising 10 phases of about 6,700 apartments and located proximate to most major city landmarks. The sheer size and scale of the project warrants that the Company focuses on a single project at this point of time. In addition, the Company is also the owner of a 107-acre land parcel in Hyderabad, which it expects to monetise over the coming years. The company is also diversifying into Media and Entertainment and Retail Space as it perceives as new growth areas.

### **JOINT DEVELOPMENT AGREEMENT RISKS**

The collaboration between PVP Ventures and the other two developers might be unfairly balanced.

**Mitigation** The Joint Development Agreement (JDA) protects the interest of all concerned parties, with PVP Ventures bringing its land as equity and the others bearing the development, construction, marketing and selling costs.

### **FUNDING RISKS**

The real estate business is capital intensive and the Developer may not be able to mobilise adequate funds for completion of the project phases as per the timelines.

**Mitigation** PVP Ventures is protected by the JDA, which governs the other development partners to bear the construction and marketing costs, thereby minimising the need for large-scale funds mobilisation by the Company. Moreover, free cash flows will be progressively accrued through phase-wise project completion and sales will enable the Company for onward deployment of funds.

### **LEGAL RISKS**

The Company's land bank may be exposed to prospective litigation.

**Mitigation** The Company's land bank possesses clear titles with proper documentation and records, minimising the possibility of prospective litigation. The Company also enjoys the services of legal experts and other consultants, enabling it to remain proactive while responding to legal risks.

## **Industry Structure and Development**

India has always been a resilient market with great fundamentals for real estate and springing back positively. By virtue of the strong and increasing demand due to our large population base, this sector has grown continually and is expected to stay steady for long. They are under a strong influence of crisis factors from the financial sector which are integrated in the real estate market system. Property markets in India respond differently to a crisis situation. Even when the world economy was reeling from the aftershock of the huge recession that hit hard even some of the largest and leading economy, the Indian real estate market remained immune to the downturn in spite of non-linear relationships between prices and hedonic variables. The real estate sector witnessed and is still getting investment from a large number of investors of both India and abroad. It has been a golden harvest even in this turbulent financial market. For most investors, real estate has been a refuge from the burn most bear due to the downturn in almost every other sector.

India today is a fast growing economy and almost 50% of the population comprises of the young, dynamic generation. As they establish themselves in the society, their requirements also increase. The high income younger generation today is their primary target. Thus, demand for real estate is also on the rise. While the rise can be seen in all the parts of India, but the major towns and metro cities are most in demand. Land is now a scarce commodity and investing in a prime location is an opportunity not to be passed up.

The key factor that affects the value of real estate is the overall health of the economy. This is generally measured by economic indicators such as the GDP, employment data, manufacturing activity, the prices of goods, etc. Broadly speaking Real Estate Sector contributes approximately 6% to India's GDP growth. Real estate contribution to India's gross domestic product (GDP) is estimated to increase to about 13 per cent by 2028, on the back of increasing industrial activity, improving income level and urbanization.

According to the National Housing Bank (NHB) Residex Index, residential property prices show an upward trend in the second half of 2014. First half had seen property prices dip, as the weak rupee and high inflation had a negative impact on spending. The year 2014 has also seen delays in approvals, project clearances and targets, apart from debt commitment on property and government spending less in this area and a huge delay in finishing projects. Needless to mention that 2015 will largely be about recovery. The RBI will most likely cut interest rates and this will see more spending in the residential real estate segment. The Ministry of Statistics Program and Implementation and PwC Analysis predict a growth of 8 to 9 per cent. Added to this, the introduction of REITs, improved market sentiment and more efforts by the government to reduce project loopholes and bottlenecks in transactions will go a long way in clearing the way for positive trends in 2015.

## **Foray Into Sports**

Based on our belief that sports is an

integral part of India story, we are very happy to inform that after winning the inaugural edition of Indian Badminton League in 2013 with our team Hyderabad Hotshots, we were runners up in the inaugural edition of Indian Super League (ISL) in December 2014 with our club Kerala Blasters FC. This will certainly compliment us as a corporate in the landscape of Sports activities apart from Cricket. Non-cricket sports in India usually have a long gestation period before they start generating returns, however we feel that in the long run the fundamentals of ISL look robust and strong.

### **Opportunities and Threats**

The major demand drivers for India's real estate market have been sustained economic growth, large scale urbanisation, expansion in India's services industry, increased disposable income levels of the middle class consumers, tax savings on home Loan products as well as real estate being considered a conventional class of investment asset. This has been further supplemented with easier and flexible financing options from increasing number of private players in this field.

With the Indian economy reviving post the general elections of May 2014, the real estate sector is warming up to the possibility of a new investment cycle. On the other hand, barring the US, the global economy continues to remain vulnerable to uncertainties, and this makes India's position more lucrative. The ruling government's action in addressing concerns of stakeholders through reforms (in the Land Acquisition Act, the

Real Estate Regulatory bill, relaxation of FDI rules, etc.) is helping sentiments in the realty space.

The residential segment which contributes about 80 percent to the real estate sector is expected to grow significantly over the next few decades. Especially with the RBI cutting repo rates three times in 2015 encourages the potential buyers to invest more in residential segment. It is estimated that India Cities need to develop at least two million houses annually for growing population. The actual number could be much higher as it does not include push in demand from re-development and shrinking size of households. Further, there was a housing shortage of about 18.7 million. Thus India needs to develop almost 45-50 million housing units by 2028. (KPMG in India Analysis)

India has huge potential to attract large foreign investments into real estate. With real estate reaching a point of saturation in developed countries and the demand and prices falling, global real estate players are looking at emerging economies such as India for tapping opportunities in real estate. Indian real estate will stay attractive due to its strong economic fundamentals and demographic factors. Moreover, there is a high level of global uncertainty looming over the developed and developing nations of the world. While developed economies are still struggling to regain their growth momentum, developing countries including India and China are expected to grow at a reasonably high rate. Investments in Indian real estate will fetch higher returns for investors as compared to other global markets. In

the coming years, the opportunities in the real estate sector will attract more global players to India and hence will help the industry to mature, become more transparent, improve management and adopt advanced construction techniques.

The Indian Real Estate industry has been on a roller coaster ride since 2005. Consequent to the government's policy to allow Foreign Direct Investment (FDI) in this sector, there was a boom in investment and developmental activities. The sector not only witnessed the entry of many new domestic realty players but also the arrival of many foreign real estate investment companies including private equity funds, pension funds and development companies entered the sector lured by the high returns on investments. The real estate sector has been riding through many highs and lows since then. The industry achieved new heights during 2007 and early 2008, characterised by a growth in demand, substantial development and increased foreign investments. However, since then, the effects of the global economic slowdown were evident here too, and the industry took a 'U' turn. FDI inflow into real estate dropped significantly and what had emerged as one of the most promising markets for foreign investments experienced a downturn.

- 10. Exceptional Items** The decrease in exceptional items was due to write back of provisions which are no longer required.

**11. Net Profit** The consolidated net loss for the year was Rs. 25.41 crores as against a net profit of Rs.2.81 crores during the previous year. Increase of loss mainly contributed by the activities of sports.

## Outlook

The real estate market in India is yet in a nascent stage and the scope is simply unlimited. It does not resemble a bubble that will burst. The Industry is on more strong footing than it has been for quite some time. An unhindered growth for the next twenty years is almost sure. Emergence of nuclear families and growing urbanisation have given rise to several townships.

The Indian real estate sector has traditionally been an unorganised sector but it is slowly evolving into a more organised one. The sector is embracing professional standards and transparency with open arms. Especially with the introduction of Real Estate Investment Trust (REIT) which will be instrumental in bringing in more transparency as well as accountability in the sector.

Market sentiment relating to real estate moved from subdued in the first half of 2014 to a phase where global investors were seen firming up plans to inject funds into India. Fund raising activities picked up, and this momentum is likely to continue in 2015. The market has begun showing signs of transition from one-way investments towards an increase in investor-developer partnerships. Joint venture and club funding is gaining preference in India, and investors are likely to look beyond the top three destinations - Mumbai, Bangalore

and NCR and move down south towards Chennai and Hyderabad for development opportunities. As a result, we will see Grade-A commercial and residential properties in tier-II and tier-III cities benefiting. Attractively-priced and well-located residential projects will continue to lure investments in 2015.

The reduction in repo rate by RBI will help gain momentum in real estate industry. It would have a direct effect in reduction of home loans by banks thereby encouraging credible buyers to invest in real estate property.

## Risks and Concerns

Market instability and uncertainty may create a slight flutter in this industry. The Current economic outlook, though not dire, seems bleak and can hamper the industry growth. Soaring numbers of corruption allegation cases across various State Governments and government officials shows India in poor light and can create a cascading effect in attracting further investments. Further, Continuous change in policies will tend to affect investment as well. Moreover, restrictive laws governing Foreign Direct Investment into real estate make it difficult for foreign investors to look at India.

High inflation rate has been pushing construction costs up and this, combined with the high cost of capital will lead to steep pricing. Frivolous litigations and unclear land titles has plagued this industry. Lack of transparency has hampered further investments in this field with investors focusing on other secure markets.

The Real Estate demand otherwise continues to remain subdued, reeling under the pressure of weak consumer sentiment, low affordability levels and general economic uncertainty. This in-turn has resulted in a significant increase in unsold inventory across markets. Given the high unsold inventory levels, the focus of developers shifted to offloading existing stock as opposed to launch of new projects, which in turn has resulted in a decline in new launches across micro markets. The delays in execution, on account of factors like shortage of labour and material as well as paucity of funds has adversely impacted the cash inflows for the developers since customers advances are linked to the construction progress achieved. The liquidity position of developers is further aggravated by the increasing difficulty in accessing bank funding and high interest rates.

### **Whistle Blower Policy**

#### **1. Policy Objective and Applicability**

As a public company, PVP Ventures Limited and its subsidiaries ('PVP') believes in conducting its affairs in a fair and transparent manner by adopting the highest standards of professionalism, honesty, integrity and ethical behaviour. Any actual or potential violation of these Principles and PVP's Code of Conduct for Employees would be a matter of serious concern for PVP.

Employees have a role and responsibility in pointing out such violations. This policy is formulated to provide a secure environment and to encourage employees of PVP to report unethical, unlawful or improper practices, acts or activities in PVP and to prohibit managerial personnel from taking any adverse personnel action against those employees who report such practices in good faith. This policy applies to all employees of PVP.

The purpose of this Policy is to provide a framework to promote responsible and secure whistle blowing. It protects employees, customers and/or third-party intermediaries wishing to raise a concern about serious irregularities within the Company. The Policy neither releases employees, customers and/or third-party intermediaries from their duty of confidentiality in the course of their work, nor is it a route for taking up a grievance about a personal situation.

#### **2. Definitions**

**Whistle-blower** is defined as any Personnel (defined below) who has or had access to data, events or information about an actual, suspected or anticipated Reportable Matter within or by the organisation, and, whether anonymously or not, makes or attempts to make a deliberate, voluntary and protected disclosure or complaint of organisational malpractice.

**Reportable Matters** means Questionable Accounting or Auditing Matters (defined below), and/or any other Company matters involving abuse of authority, breach of Code of Conduct, fraud, bribery, corruption, employee misconduct, illegality, health and safety, environmental issues, wastage/misappropriation of company funds/assets and any other unethical conduct.

**Questionable Accounting or Auditing Matters** include, without limitation, the following:

- a.** fraud or deliberate error in the preparation, evaluation, review or audit of any financial statement of the Company;
- b.** fraud or deliberate error in the recording and maintaining of financial records of the Company;

- c. deficiencies in or non-compliance with the Company's internal accounting controls;
- d. misrepresentation or false statement to or by a senior officer or accountant regarding a matter contained in the financial records, financial reports or audit reports of the Company; or
- e. Deviation from full and fair reporting of the Company's financial condition.

**Personnel** means any employee, director, officer, customer, contractor and/or third-party intermediary engaged to conduct business on behalf of the Company, such as agents and consultants.

**Audit Committee** means the Audit Committee constituted by the Board of Directors of the Company in accordance with the provisions of the Companies Act read with Clause 49 of the Listing Agreement.

### **3. Roles, Rights and Responsibilities of Whistle-Blowers**

- a. Whistle-Blowers provide initial information based on a reasonable belief that an alleged wrongful conduct has occurred. The motivation of a whistle-blower is irrelevant to the consideration of the validity of the allegations. However, the intentional filing of a false report, whether orally or in writing, is itself considered an improper activity.
- b. Whistle-Blowers shall refrain from obtaining evidence for which they do not have a right of access. Such improper access may itself be considered an improper activity.
- c. Whistle-Blowers have a responsibility to be candid with the Investigation Officer or the Members of the Audit Committee or others to whom they make a report of alleged improper activities and shall set forth all known information regarding any reported allegations.
- d. Anonymous whistle-blowers must provide sufficient corroborating evidence to justify the commencement of an investigation. An investigation of unspecified wrongdoing or broad allegations would not be undertaken without verifiable evidence. Because investigators are unable to interview anonymous whistle-blowers, it may be more difficult to evaluate the credibility of the allegations and, therefore, less likely to cause an investigation to be initiated.
- e. Whistle-Blowers are "reporting parties," not investigators. They are not to act on their own in conducting any investigative activities, nor do they have a right to participate in any investigative activities other than as requested by the investigating authority.
- f. The identity of the whistle-blower will not be disclosed except where required under the law or for the purpose of the investigation. Should, however, the whistle-blower self-disclose his or her identity, there will no longer be an obligation not to disclose the whistle-blower's identity.

- g.** A whistle-blower's right to protection from retaliation does not extend immunity for any complicity in the matters that are the subject of the allegations or an ensuing investigation or any other misconduct or wrong doing.
- h.** This policy may not be used as a defence by an employee against whom an adverse personnel action has been taken for legitimate reasons or cause under Company rules and policies. It shall not be a violation of this policy to take adverse personnel action against an employee, whose conduct or performance warrants that action, separate and apart from that employee making a disclosure.

#### **4. False Complaints**

While this Policy is intended to protect genuine Whistle-blowers from any unfair treatment as a result of their disclosure, misuse of this protection by making frivolous and bogus complaints with mala fide intentions is strictly prohibited. A Personnel who makes complaints with mala fide intentions and which are subsequently found to be false will be subject to strict disciplinary action.

#### **5. Reporting Mechanism**

Personnel should raise Reportable Matters with someone who is in a position to address them appropriately. In most cases, a Personnel's supervisor, manager or point of contact is in the best position to address an area of concern. Supervisors, managers or points of contact to whom Reportable Matters are raised are required to report the same immediately to the Head - Legal & Company Secretary or Chairman of the Audit Committee.

Notwithstanding the aforesaid, Personnel can lodge a complaint in any one of the following ways:

- a.** by contacting the Chairman of the Audit Committee
- b.** by contacting the Head - Legal and Company Secretary, any member of the Audit Committee or anyone in management whom the Whistle-blower is comfortable approaching;
- c.** by sending an email to [investorrelations@pvpglobal.com](mailto:investorrelations@pvpglobal.com), or;
- d.** by sending a complaint letter in a sealed envelope marked 'Private and Confidential' to the Group Head - Legal.

A complaint may be made anonymously. If a complaint is made anonymously, however, the complainant must be detailed in their description of the complaint and must provide the basis of making the assertion therein.

Although a Whistle-blower is not required to furnish any more information than what he/she wishes to disclose, it is essential for the Company to have all critical

information in order to enable the Company to effectively evaluate and investigate the complaint. It is difficult for the Company to proceed with an investigation on a complaint, particularly an anonymous complaint, which does not contain all the critical information such as the specific charge. The complaint or disclosure must therefore provide as much detail and be as specific as possible, including names and dates, in order to facilitate the investigation.

To the extent possible, the complaint or disclosure must include the following:

1. The employee, and/or outside party or parties involved;
2. The sector of the Company where it happened (division, office);
3. When did it happen: a date or a period of time;
4. Type of concern (what happened);
  - a. Financial reporting;
  - b. Legal matter;
  - c. Management action;
  - d. Employee misconduct; and/or
  - e. Health and safety and environmental issues.
5. Submit proof or identify where proof can be found, if possible;
6. Who to contact for more information, if possible; and/or
7. Prior efforts to address the problem, if any

## 6. Investigations

Upon receipt of a complaint, the Head - Legal and Company Secretary will make an assessment thereof and place an appropriate complaint before the Audit Committee. The Audit Committee shall address all concerns or complaints regarding Reportable Matters which are placed before them, and ensure resolution of the same.

The Head - Legal and Company Secretary may, in consultation with the Audit Committee, either direct the complaint to the organization/department best placed to address it (while maintaining oversight authority for the investigation), or lead the investigation in person to ensure prompt and appropriate investigation and resolution.

All information disclosed during the course of the investigation will remain confidential, except as necessary or appropriate to conduct the investigation and take any remedial action, in accordance with any applicable laws and regulations. The Company reserves the right to refer any concerns or complaints regarding Reportable Matters to appropriate external regulatory authorities. All Personnel have a duty to cooperate in the investigation of complaints reported as mentioned hereinabove.

Depending on the nature of the complaint, any concerned Personnel, at the outset of formal investigations, may be informed of the allegations against him/her and provided an opportunity to reply to such allegations.

Personnel shall be subject to strict disciplinary action up to and including immediate dismissal, if they fail to cooperate in an investigation, or deliberately provide false information during an investigation. If, at the conclusion of its investigation, the Company determines that a violation has occurred or the allegations are substantiated, the Company will take effective remedial action commensurate with the severity of the offence.

This may include disciplinary action against the concerned Personnel. The Company may also take reasonable and necessary measures to prevent any further violations which may have resulted in a complaint being made. In some situations, the Company may be under a legal obligation to refer matters to appropriate external regulatory authorities.

## **7. Non Retaliation**

No Personnel who, in good faith, makes a disclosure or lodges a complaint in accordance with this Policy shall suffer reprisal, discrimination or adverse employment consequences. Accordingly, the Company strictly prohibits discrimination, retaliation or harassment of any kind against a Whistle-blower who, based on his/her reasonable belief that one or more Reportable Matters has occurred or are occurring, reports that information. Any Personnel who retaliates against a Whistle-blower who has raised a Reportable Matter in good faith, will be subject to strict disciplinary action up to and including immediate termination of employment or termination of his/her relationship with the Company.

If any Personnel who makes a disclosure or complaint in good faith, believes that he/she is being subjected to discrimination, retaliation or harassment for having made a report under this Policy, he/she must immediately report those facts to his/her supervisor, manager or point of contact, or the Head - Legal and Company Secretary. If, for any reason, he/she does not feel comfortable discussing the matter with these persons, he/she should bring the matter to the attention of the Audit Committee. It is imperative that such Personnel brings the matter to the Company's attention promptly so that any concern of reprisal, discrimination or adverse employment consequences can be investigated and addressed promptly and appropriately.

## **8. Document Retention**

The Company shall maintain documentation of all complaints or reports subject to this Policy. The documentation shall include any written submissions provided by the complainant, any other Company documents identified in the complaint or by the Company as relevant to the complaint, a summary of the date and

manner in which the complaint was received by the Company and any response by the Company to the complainant. All such documentation shall be retained by the Company for a minimum of six (6) years from the date of receipt of the complaint. Confidentiality will be maintained to the extent reasonably practicable depending on the requirements and nature of the investigation, as indicated above.

## 9. Additional Enforcement Information

In addition to the Company's internal complaint procedure, Personnel should also be aware that certain central, federal, local and state law enforcement agencies and regulatory authorities are authorized to review questionable accounting or auditing matters, or potentially fraudulent reports of financial information. Nothing in this Policy is intended to prevent any Personnel from reporting information to the appropriate agency when the Personnel has reasonable cause to believe that the violation of a central, federal, local or state statute or regulation has occurred.

## 10. Modification

The Company may modify this Policy unilaterally at any time without notice. Modification may be necessary, among other reasons, to maintain compliance with local, state, central and federal regulations and/or accommodate organizational changes within the Company.

## 11. Conclusions

The PVP Code of Conduct as well as the Company's policies and practices have been developed as a guide to our legal and ethical responsibilities to achieve and maintain the highest business standards. Conduct that violates the Company's policies are viewed as unacceptable by the Company. Certain violations of the Company's policies and practices could even subject the Company and any individual employee involved to civil and criminal penalties. Before issues escalate to such level, Personnel are encouraged to report any violations covered herein above, or reprisal, discrimination or adverse employment consequences related to such reports.
